

ENTRY to the People's Bank of Blockchain

Problem

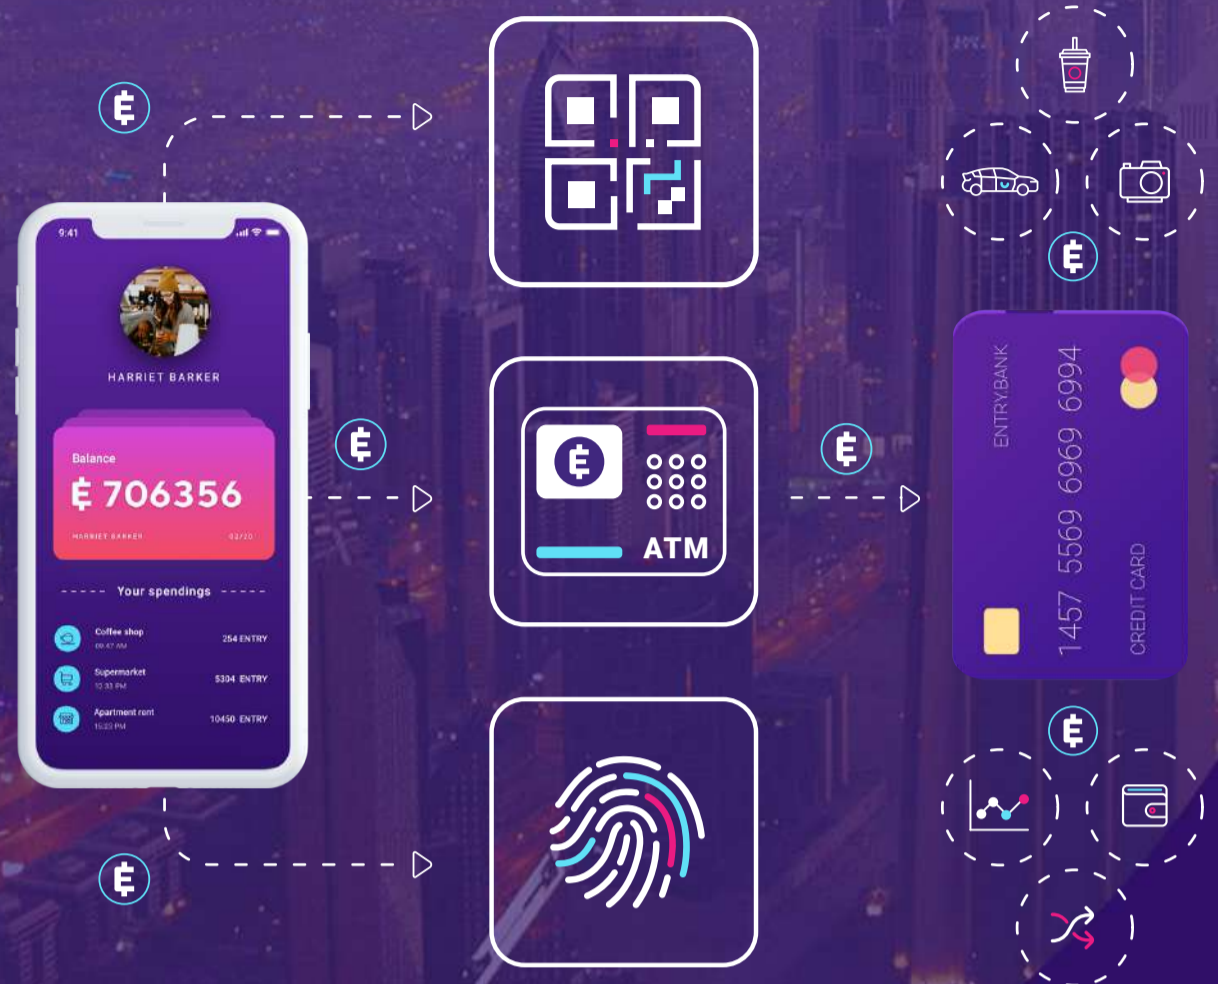

Customers are not loyal to any cryptocurrencies as they have no use other than speculation. The real question is, why speculate on a coin which has no inherent use?

Goal

ENTRY has the goal to become the gateway between traditional and new financial paradigms and systems. Spend ENTRY everywhere, everyday, in every possible way like using fiat money.

Solution

ENTRY is creating an intuitive to use bridge between the old system and the blockchain technology which will revolutionize banking.
